

BIG BANKS **are destroying our community**

The banks took billions of our tax dollars, but refuse to pay their own taxes. We bailed them out, yet we're the ones being forced out of our homes. The banks' greed is costing our neighborhoods millions every year - cutting services and closing schools and community centers. And it's only getting worse.

BIG BUSINESSES **are killing our jobs and our environment**

While the CEOs rake in millions in salary and bonuses, major corporations are laying off thousands of workers each month. They're sitting on trillions in profits and getting billion-dollar tax breaks while the rest of us struggle just to find work to make ends meet. And all the while, these companies raise our rates, pump toxic chemicals into our water and air, and endanger our families' lives. Enough is enough.

IT'S TIME TO TAKE BACK OUR CITY!

MARCH & RALLY **friday, september 30 @ 2:00pm** **boston common band stand**

We can't afford to sit on the sidelines while they make things worse. Stand up and march on the Boston banks and businesses that are bankrupting our community. It's time to take back our city - and push an agenda that puts us, the people, first!
